Parceiros de performance na mineração subterrânea

Sabemos o que significa operar embaixo da terra

Sabemos o que significa quando uma máquina para

Conhecemos o impacto operacional e financeiro que uma parada de máquina representa em ambiente de mineração subterrânea. Segurança, produção e custo são variáveis que não admitem margem para erro. Por isso, nosso compromisso vai além da manutenção. Executamos serviços que garantem disponibilidade de frota, performance e continuidade operacional.

Quem somos

Nossa equipe técnica possui know-how de mais de duas décadas dedicadas à manutenção, reforma e recuperação de equipamentos móveis para mineração subterrânea. Um histórico profissional de entrega dentro das operações mais exigentes do país, atuando lado a lado com operadores, gestores de manutenção e times de produção.

Essa vivência nos permite hoje oferecer um modelo de atendimento ágil, com soluções técnicas personalizadas, capacidade de diagnóstico preciso e foco total em disponibilidade e segurança operacional. Somos um parceiro técnico. Pensamos como o cliente. Atuamos para gerar resultado.

Tenha uma consultoria técnica personalizada

① Expertise profissional

Equipe com histórico comprovado de atendimento a grandes players da mineração no Brasil.

② Economia de tempo

Agilidade de resposta e flexibilidade operacional que só uma estrutura independente permite.

③ Redução de estresse

Foco absoluto em disponibilidade, redução de custo e performance em campo com cumprimento rigoroso das normas de segurança e qualidade.

④ Soluções especializadas

Personalização técnica para diferentes realidades de mina e frota
